Cities

	A	B	C	D	E	F	G
1	Cities	Population in 2000		growth	Median Household income in 2000	Median Household income now	Median Household income growth (%age)
2	Dallas, TX						
3	San Antonio, TX						
4	Houston, TX						
5	Columbus, OH						
6	Cleveland, OH						
7	Phoenix, AZ						
8	Indianapolis, IN						
9	Memphis, TN						
10	Detroit, MI						
11	Orlando, FL						
12	Tampa, FL						
13	Jacksonville, FL						
14	Boise, ID						
15	Tucson, AZ						

Look for cities with Population change since 2000 of over 6% if the city is over a million people. Look for population growth of over 10% if the city is under a million. Look for 20%-30% growth if city is under half a million.

Do not write anything in this Tab. The list of cities in this tab is for your reference, it is the full list of cities that students can compare. Scroll down to see the links and rules of thumb that you will be using. Then go to STUDENTS AND CITIES tab, and find your tab number (look for your name). Finally, go to that tab number. For example, if your tab number is 37, keep using the arrows that are on the bottom right to keep scrolling until you see Tab 37 and then click on it. Now, start filling out the cells in your tab, using the links and Rules of Thumb that are in The Rules of Thumb tab (yup, some scrolling required, you can copy-paste the entire rule of thumb section to your own tab if that makes it easier).
