

CITIES REALFOCUS 1: POPULATION GROWTH

If the city is between a quarter million and 1 million in population, ideally, you want 20% population growth between the year 2000 and the year 2017.

15% growth for cities over a million

10% growth for cities over 2 million

30% growth for cities under a quarter million

For each year beyond 2017, add 1.25% growth (add 1% for cities over a million, and add 2% for cities under a quarter million)
